

## FRILO “Selection” Package Offer

Our FRILO “Selection” Package offers a comprehensive range of powerful software applications for the structural calculation and design of individual building components at a most favourable price.

The package comprises fifteen freely selectable applications from our software pool listed overleaf.

In addition, you can buy the PLT and SCN applications (Plates/Panels by Finite Elements) at a reduced price in combination with this offer.

The FRILO Software Package is available alone or in combination with a Software-Service-Contract (SSC). You can find the list of applications and the SSC fees on the back.
